

Facebook Post 3.10.2020

As concerns around COVID-19 (coronavirus) grow, we want you to know that Cardinal is heeding the guidance we have received from federal and local authorities. We are committed to providing spaces with limited risk and prepared responses. Steps being taken by Cardinal include:

- coordinating a prevention and response plan with the health department and other health experts;
- bolstering food, water and medical supplies;
- educating persons served, employees and visitors on responsible actions, like a flu shot and proper hygiene;
- developing contingency plans for the suspension of services or quarantine; and,
- frequently disinfecting surfaces at all Cardinal sites.

Questions or comments about Cardinal's response to the coronavirus can be directed to Executive Vice President Matt Boren at matt.boren@cardinalservices.org or 574-371-1374.
